Supporters Experience

- Enjoy Sailing, Team Building & Corporate Entertainment and help raise funds for two Children's Charities

Friday 4th October 2019 at Drummoyne Sailing Club from 12pm onwards

The Waterline Challenge inaugural Cock-A-Hoop Regatta will be hosted by Drummoyne Sailing Club on Friday 29th March 2019. It is a corporate event and will raise many thousands of dollars for charitable causes. The major beneficiary of the 2019 Cock-A-Hoop Regatta is the Children's Medical Research Institute (CMRI) at Westmead Hospital, along with ConnectEd Foundation which raises funds for research and patient care and is dedicated to supporting over 600 rare connective disorders.

CMRI has a long history of medical discoveries and public fundraising, and the establishment of the nationally recognised "Jeans for Genes" brand. CMRI pioneered microsurgery, immunisations against lethal childhood illnesses and care for premature babies, all of which has improved the lives of countless Australian children over the last 58 years. Today, CMRI is the site of world-leading research in areas such as cancer, neurobiology, embryology and gene therapy.

Get Onboard for a great Experience – ONLY \$400 per person!

Get involved as a Corporate Supporter and host your team and/or clients for the day. It's a great Team Building or Client Entertainment opportunity. All you pay is \$400 a head, so a crew of 3 pays \$1,200, and a crew of 8 \$3,200. This includes everything for the day; Lunch, Sailing, plus Food & Drinks at the on-shore presentations.

Expose Yourself to many yacht and business owners

There are limited opportunities for Regatta Sponsors which range in value from \$2,000 to \$10,000. Each provides great exposure and benefits. All levels of sponsorship includes a number of spots on one of the yachts. We expect good coverage in both local and national media.

Why Cock-A-Hoop? General meaning is "in a state of exuberant elation" believed to be derived from when everything came in barrels. The brass Cock was hammered in and Hoop wrapped around it before the barrel was turned on its side, ready for the flow of ale to run without intermission!
